

# The Ultimate Drum BBQ with Ember Maker

## Description

Made in Food Grade 304 Stainless Steel.

Large hand rolled drum with a grid made in 25 x 25 angle iron with 6 mm center support and 4 mm cross bars spaced at 15 mm intervals.

Height adjustment of 185 mm above the fire level with 3 height settings at 30 mm intervals above the fire.

Fitted with shaped internal fire tray to keep the fire off the base of the bins and at the same time offer ventilation under the fire.

The unit is fully portable on solid rubber wheels for easy movement across the deck or patio with minimal noise.

Side table inlaid with solid weather resistant timber offers a surface to store spices and marinades or even the wine and beer while you cook.

Now includes an ember maker for preparing your next batch of wood while you carry on cooking.

Now including an ember maker

4 cooking heights

Internal Fire Grate for protecting the drum from direct heat and also allowing ventilation under the fire
